

Manual Flow Cell for the TL23 Series Turbidimeters

Nr. produs: 9657100

RON Preț (fără TVA): Contact

Nu este afișată data expirării

Obtain measurements without individual sample cells. Using the flow cell:

- Increases speed of measurement
- Provides a single cell for all measurements, improving repeatability
- Eliminates the need for matched sample cells
- Minimises the amount of glassware that must be purchased, stored, and cleaned
