Produse periculoase

Most natural waters range from pH 4 to pH 9, but commonly are above pH 7 because of carbonates and bicarbonates (alkalinity). The pH of water used in industry, boiler feed water, and swimming pools usually is kept within a narrow range. Simply add indicator to the sample and compare the color to the spots on the color disc to measure pH.

A wide range kit applicable to a variety of samples

A great option for fast, reliable readings

Specificații

Domeniu de măsurare:	4 - 10 pH
Interval de măsurare standard:	4 - 10 pH
Model:	17N
Model test kit:	17N
Numar teste:	300
Nume metoda:	Color disc/ Wide range indicator
Parameter:	pH
Parametru:	pH, wide range
Platforma:	Disc culoare
Smallest increment:	0.5 pH
Tipul carcasei:	B
